

Second Quarter 2015 Investor Review

Presented August 5, 2015

Forward Looking Statements and GAAP Disclaimer

These slides contain (and the accompanying oral discussion will contain) "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks, uncertainties and other factors that could cause the actual results of the Company to differ materially from the results expressed or implied by such statements, including general economic and business conditions, conditions affecting the industries served by the Company and its subsidiaries, conditions affecting the Company's customers and suppliers, competitor responses to the Company's products and services, the overall market acceptance of such products and services, the integration of acquisitions and other factors disclosed in the Company's periodic reports filed with the Securities and Exchange Commission. Such statements may include, but are not limited to, statements about the Company's business outlook and financial guidance and other statements that are not historical facts.

Consequently such forward-looking statements should be regarded as the Company's current plans, estimates and beliefs. The Company does not undertake and specifically declines any obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect any future events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

Statement Regarding use of Non-GAAP Measures:

Adjusted EBITDA as presented in these slides, is a supplemental measure of our performance. In each case, this measure is not required by, or presented in accordance with, generally accepted accounting principles in the United States ("GAAP"). Adjusted EBITDA is not a measurement of our financial performance or financial position under GAAP and should not be considered as an alternative to net sales, net income or any other performance measures derived in accordance with GAAP or as alternatives to cash flow from operating activities as measures of our liquidity.

Adjusted EBITDA consists of net income plus accretion of environmental liabilities, depreciation and amortization, net interest expense, provision for income taxes, other non-cash charges not deemed representative of our fundamental business performance, and excludes other expense (income). Our management considers Adjusted EBITDA to be a measurement of performance which provides useful information to both management and investors. Because Adjusted EBITDA is not calculated identically by all companies, our measurement of Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. All amounts in USD unless otherwise noted.

For a reconciliation of adjusted income from operations, adjusted net income, adjusted earnings per share and Adjusted EBITDA to net income, please refer to the appendix in this presentation.

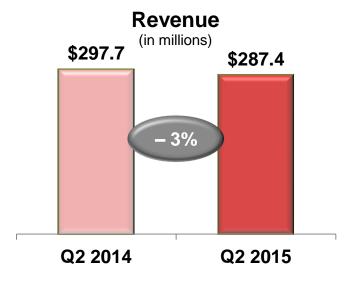

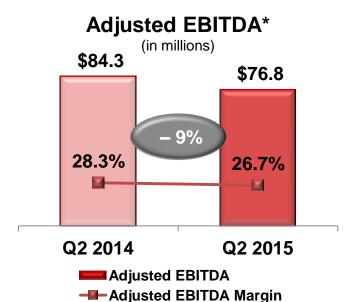

Summary of Q2 Results

- Q2 revenue was a record \$936.2 million, up 9% from prior year with emergency response (ER) events driving the increase
- Q2 Adjusted EBITDA* of \$163.1 million, an increase of 20%; Adjusted EBITDA margin of 17.4%, up 160 basis points
- Industrial & Field Services saw improvement from ER work, U.S. turnaround activity and stable base business
- SK Environmental achieved very strong quarter, supported by Thermo Fluids (TFI) addition
- Technical Services slightly down on lower landfill volumes brought on by project delays
- Oil Re-refining and Recycling rebounded strongly from Q1
- Lodging and Oil & Gas continued to reflect the challenging macro environment and ongoing slowdown in the energy space

^{*} For a reconciliation of Adjusted EBITDA to net income, please refer to the appendix in this presentation.

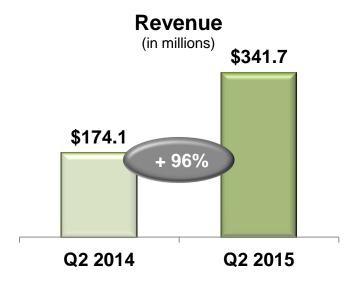

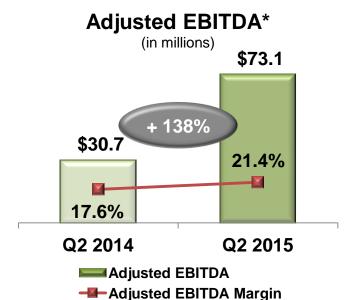

- Revenue down slightly YoY due to waste project delays, lower E&P volumes, unplanned outages and currency translation, which outweighed gains in drum volumes and bulk solids
- Adjusted EBITDA and margins down due to lower revenues, business mix and delay of certain high-margin volumes/projects
- Incinerator utilization at 91% for quarter;
 91% for both U.S. and Canada
- Landfill tonnage down 29% YoY

^{*} For a reconciliation of Adjusted EBITDA to net income, please refer to the appendix in this presentation.

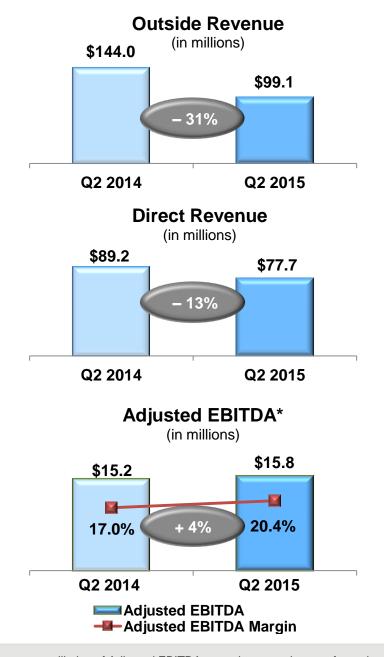

- Revenue increased substantially due to ER events, as well as growth in a number of our specialty industrial services related to U.S. turnaround activity
- Base business in Field Services also continued its growth trajectory through collaboration with Safety-Kleen
- Oil Sands and currency translation effect remain headwinds in base Industrial business
- Significantly higher profitability and margins due to ER work and mix
- Personnel utilization of 87%, consistent with a year ago and up from 77% in Q1

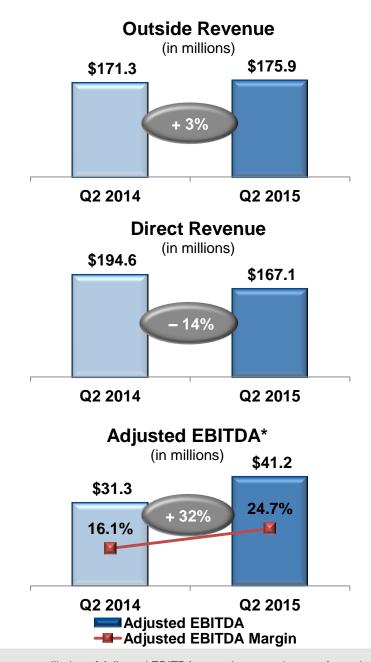

^{*} For a reconciliation of Adjusted EBITDA to net income, please refer to the appendix in this presentation.

- Outside revenue down 31% YoY due to lower base oil and blended pricing; direct revenue also down due to pricing
- Continued to push forward with Zero-Pay and Charge-for-Oil initiative, as well as lowering transportation costs
- Profitability increased slightly and margins grew more than 300 bps due to better costs and operational efficiencies
- Blended products accounted for 33% of volume, down from 37% in Q2 a year ago and flat with 33% in Q1 2015

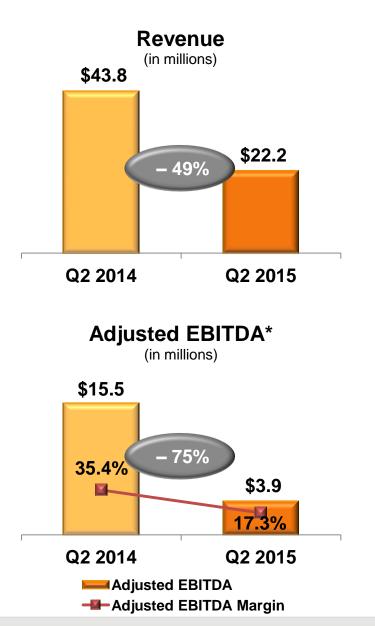

^{*} For a reconciliation of Adjusted EBITDA to net income, please refer to the appendix in this presentation.

- Outside revenue up slightly as addition of TFI and increase in base business offset decrease in S-K RFO revenue
- Direct revenue decline again reflects lower intercompany contribution caused by reduction in PFO
- Significant increase in Adjusted EBITDA and margin improvement reflect business mix, cost reductions and TFI contribution
- 248K parts washer services conducted, up from the 225K reported in Q2 2014
- Collected more than 59 million gallons of waste oil vs. 55 million in Q2 2014
- PFO decline continued with average down three cents from Q1

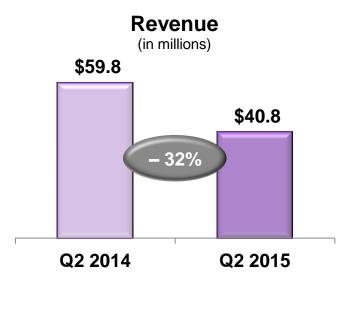

^{*} For a reconciliation of Adjusted EBITDA to net income, please refer to the appendix in this presentation.

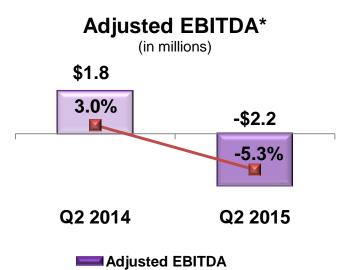

- Revenue down YoY primarily due to combination of lower occupancy and reduced room rates at fixed locations as Oil Sands environment remains challenging
- Additional headwinds included currency translation effect, lower mobile camp activity and limited manufacturing opportunities
- Profitability and margins down significantly due to pricing pressure, occupancy levels and business mix
- Outside room utilization at primary fixed lodges was 31%, compared with 50% in Q1 and 72% in Q2 a year ago

^{*} For a reconciliation of Adjusted EBITDA to net income, please refer to the appendix in this presentation.

- Revenue decline reflects ongoing softness in energy markets in both Canada and U.S., as well as currency translation
- Similar trends as prior quarters: seismic limited by lower exploration budgets; surface rentals facing lower rig counts; fewer project opportunities for production services
- Profitability and margins down again due to revenue decline, pricing pressure and currency
- Average number of rigs serviced was 74, down from 124 in Q2 2014
- Average utilization of key equipment was 32%, compared with 40% a year ago and 51% in Q1

^{*} For a reconciliation of Adjusted EBITDA to net income, please refer to the appendix in this presentation.

Corporate Update

- Carve-out continues to proceed on schedule
 - Preparing audited financials engaged auditor
 - Undergoing a branding exercise expect new name later this year
 - In process of assembling executive team and board of directors
 - On track to be prepared to go public after January 1, 2016
- Integrating TFI acquisition
 - Aligning closely with existing Safety-Kleen collection network and rail assets
 - Beginning cross-selling of environmental services to TFI's 20,000 customers

Capital Allocation Strategy

Three key elements:

- Mix will be determined on a relative basis by: performance, price, risk, opportunity and cost of capital
- Will deploy capital with a focus on building long-term shareholder value and improving returns, particularly ROIC

Outlook

Technical Services

- Extending disposal momentum at incinerators
- Pursuing strong pipeline of large volume projects for landfill business
- Proceeding with construction of new El Dorado incinerator

Industrial and Field Services

- Managing ongoing emergency response events
- Allocating resources to maximize turnaround season in U.S. and Canada
- Cross-selling Field Services to S-K and TFI customers

Oil Re-refining and Recycling

- Lowering transportation costs through "highest margin routing" program
- Increasing emphasis on expanding blended products percentage
- Piloting direct sales program to drive additional blended product opportunities

Outlook

SK Environmental Services

- Opening new branches or co-locating with existing Field Services locations
- Driving average PFO down further while maintaining sufficient volumes
- Integrating TFI by optimizing network and cross-selling environmental services

Lodging Services

- Focusing on maximizing fixed lodge usage, moving assets as necessary
- Seeking opportunities for underutilized mobile assets including pipeline projects
- Pursuing outside manufacturing opportunities in additional markets

Oil and Gas Field Services

- Capitalizing on some emerging opportunities in seismic market
- Gaining market share in shale plays to increase utilization
- Focusing on reducing costs to better reflect current environment
